AEROTRAK+ REMOTE AIRBORNE PARTICLE COUNTERS WITH PUMP 6000 SERIES

AeroTrak[®]+ Remote Airborne Particle Counters (APCs) with Pump are ideal for installation in locations that do not have external vacuum systems, typical to but not limited to electronics, semiconductor, and industrial facilities. They reduce installation complexity and costs—without worry of data interruption or potential data loss—using internal vacuum pumps and long range wireless communication in facilities with limited infrastructure. AeroTrak+ Remote APCs with Pump are designed to be easily relocated as manufacturing layouts change or facilities redistribute resources or move locations.
